

Encoder accessories

... with highly flexible connection options

High flexibility

Together with you, we will optimise the electrical connection of our encoder WDG to your evaluation electronics.

We can provide different cable lengths or colours, finished cables or any required connector design.

Matching accessories

Our coordinated range of accessories gives you the opportunity to get all your needs from one supply source.

We will be happy to advise you in your choice. Here too we specialise in individual solutions.

Custom assemblies

D-SuB connectors

Torque brackets

mating connectors

Mounting brackets

shaft adapters

couplings

Spring lever

measuring wheels
